

NOTRAFFIC

Autonomous Traffic Management Platform

NoTraffic: World First Autonomous Traffic Management Platform

Solving traffic challenges, while unlocking mobility benefits for cities

5 Live Customers
Enjoying NoTraffic's solution

690 TB
of behavioral data
processed DAILY

½ Million Vehicles
detected DAILY

*"NoTraffic provides a technology solution to our everyday transportation challenges:
improving safety and reducing traffic congestion"*

- Victor Mendez, Former Deputy Secretary of Transportation, US Department of Transportation

THE PROBLEM

TRAFFIC IS CITIES BIGGEST PAIN

Cities are spending billions of dollars on unsatisfying outdated solutions
Smart mobility opportunities locked by legacy infrastructure

Traffic lights grids are still not connected and based on fixed time plans

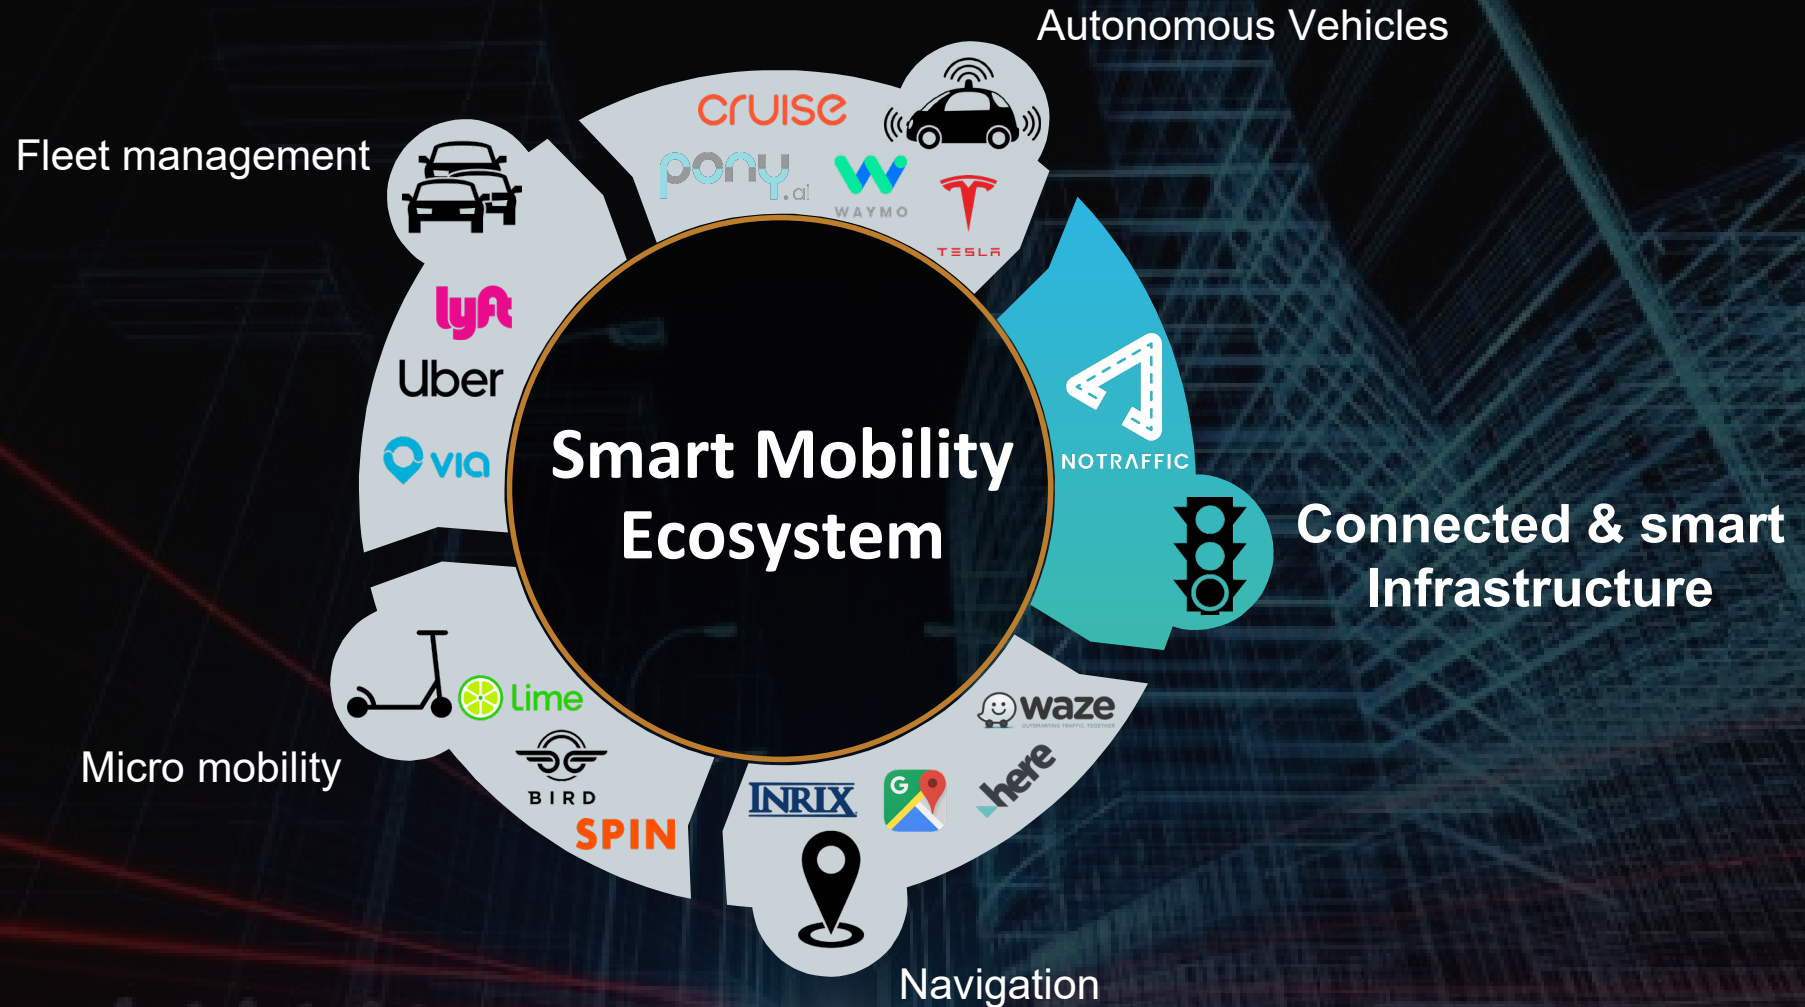

Outrages maintenance cost result in ~\$50,000 per intersection every 5 years

Legacy infrastructure is blocking smart mobility opportunities

LEADING THE SMART INFRASTRUCTURE MARKET

THE SOLUTION: AI AUTONOMOUS TRAFFIC MANAGEMENT PLATFORM

- City defines policy:
 - ✓ Transit Signal Priority
 - ✓ Emergency Vehicle Preemption
 - ✓ Pedestrian / bikes prioritization
 - ✓ or even private vehicle fleets
- AI algorithms operates city grid layouts autonomously to maximize road capacity

DIGITAL TRANSFORMATION IN 2 HOURS

AI Sensor

-  Plug & Play installation
-  AI, edge computing sensors
-  V2I communication (DSRC & C-V2X)
-  Multi-modal object segmentation

Optimization Engine

-  Global traffic controller compatibility
-  Interconnected Cloud Hub
-  Powered by 4G/5G

“People who are really serious about software should make their own hardware.”
- Alan Kay

CASE STUDY – CITY OF REDLANDS, CALIFORNIA

TWO months of optimization,
at only TWO of city signals:

59%

Direct cost savings

900 Hours

Delay Eliminated

\$331,380

Economic Benefit

11 Tons

Emissions Reduced

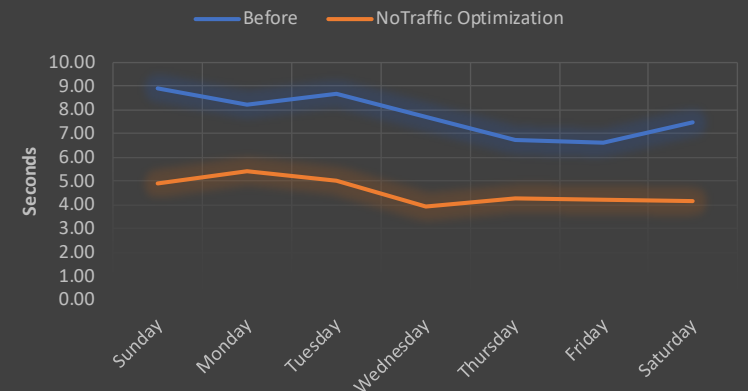

Average Total Vehicle Delay - Daily

Average Vehicle Delay - Hourly

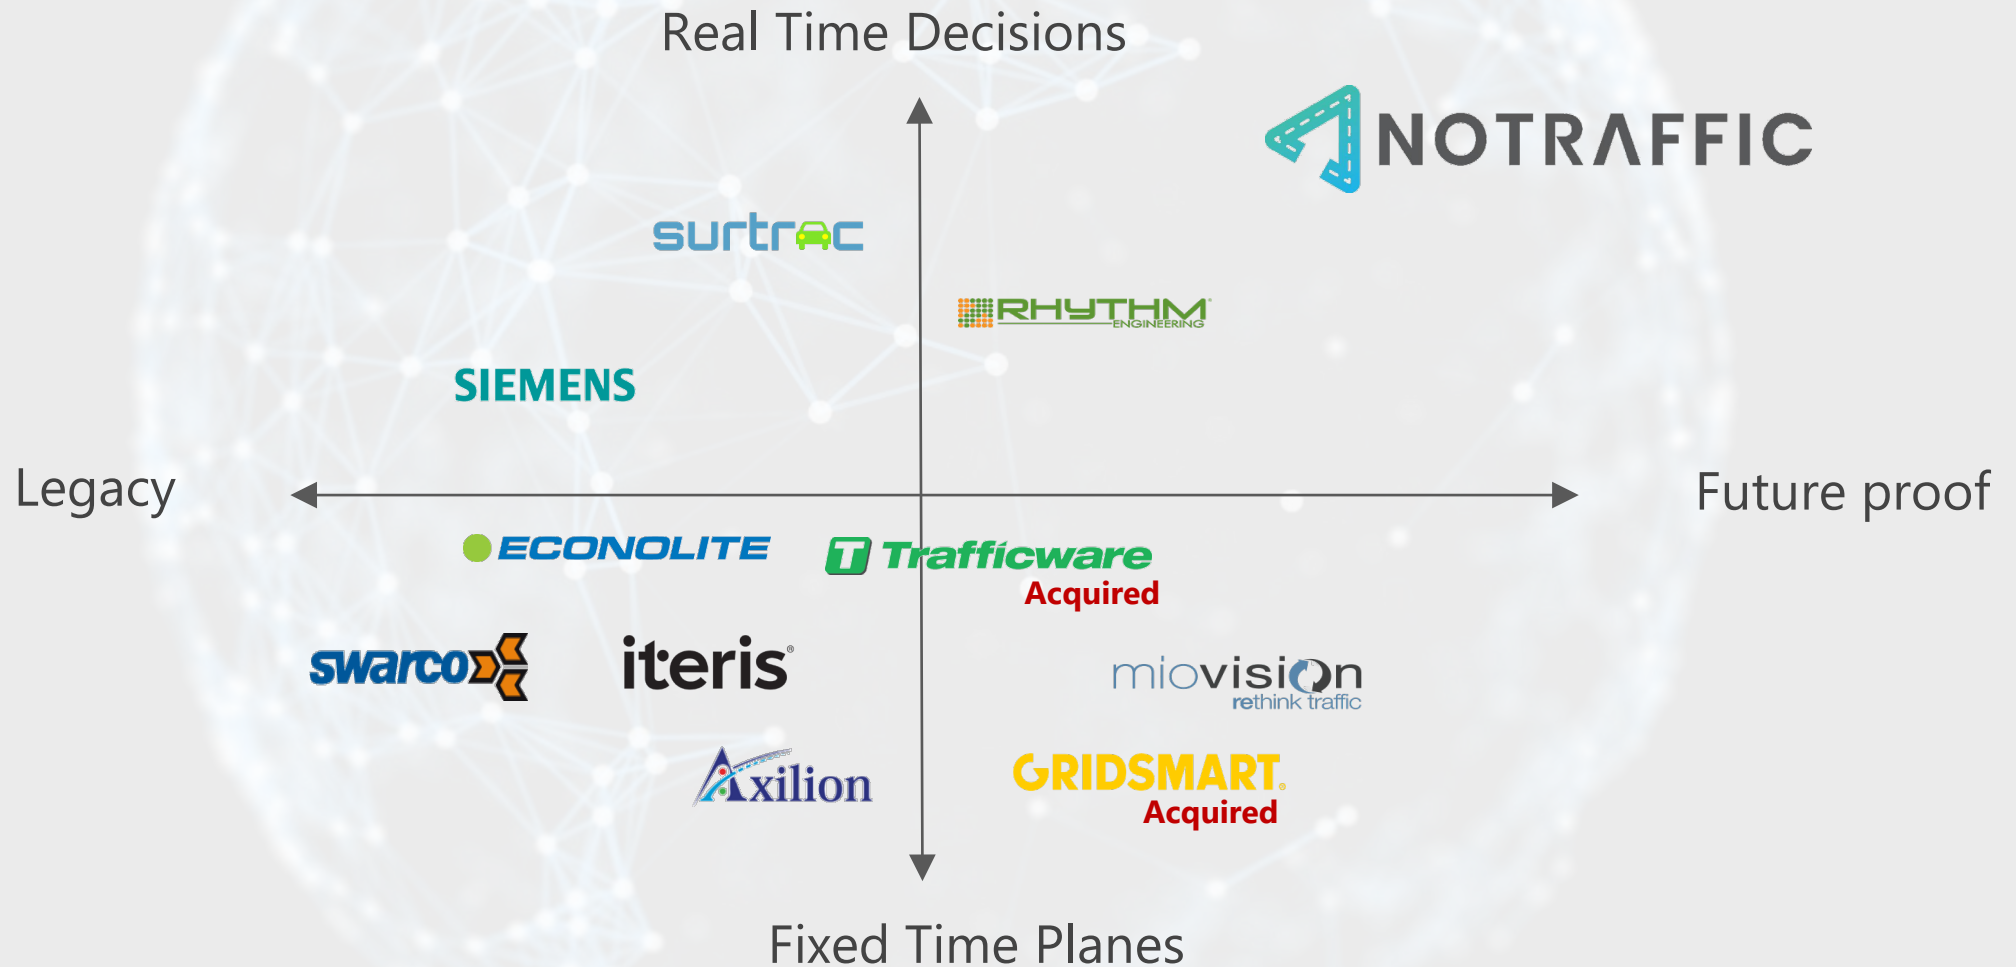

Average Vehicle Delay - Daily

On average NoTraffic saves 112 hours weekly, with 40% daily increased speed and 37% less time wasted

WHO ELSE IS OUT THERE

NoTraffic is the ONLY Real Time Adaptive & Connected-vehicles-ready solution

THE TEAM

Tal Kreisler

Co-founder & CEO

Entrepreneurial, business & management experience, LL.B law, BA business & Accounting

Or Sela

Co-founder & VP R&D

Ceva-DSP & Intel
Deep Learning & Computer vision expert, B.Sc. EE, Tel Aviv University, Magna cum laude, 8200 Unit alumni

Uriel Katz

Co-founder & CTO

IBM & Trusteer, R&D Group Manager
CTO in various startups, 13 years of tech experience

Liora Katz

COO

Trusteer, Twistlock, Topspin

Kjeld Lindsted

VP of Product

City of Redlands, CA

Thomas Cooper

VP of Sales

Rhythm Engineering, Siemens, TTS

Shay Glikman

Director of HW Engineering

Orckit, Elspec, Comtel

Prof. Avishai Ceder

Advisory Board

MIT, Berkeley, Hong Kong, Tokyo, Technion Chief Scientist, Israel Ministry of Transportation

Prof. Nathan Gartner

Advisory Board

Inventor of the first algorithm for real-time optimization of signalized intersections. (MIT, Toronto, Technion, Francis College)

Victor Mendez

Advisory Board

Former Deputy Secretary of Transportation, US DOT Administrator of the Federal Highway Administration (FHWA)

Tal Recanati

Advisory Board

Mobility investor (Mobileye, Guardian)

David Pickeral

Advisory Board

Smart Transportation Leader
Global IBM

THE FUTURE OF TRAFFIC MANAGEMENT. TODAY

Team: 22 employees in IL & US

IP: 5 U.S patents, 1 granted

Funding: \$6.7M
