AI4G: AI FOR GOVERNMENT SHOWCASE

SPONSORSHIP AND BRANDING OPPORTUNITIES

COLORADO SMART CITIES
ALLIANCE

HOW AI IS BEING USED TO ADVANCE SMARTER COMMUNITIES

WHAT IS THE AI4G SHOWCASE?

Join the Colorado Smart Cities Alliance (CSCA) in the culminating event of the AI For Government series, which will provide a hands-on showcase illustrating how AI can be used to help government agencies improve services and quality of life in their communities.

The event will bring together innovation leaders from towns, cities, counties, utilities and state agencies from across Colorado to engage with entrepreneurs, solution providers and research organizations on the cutting edge of AI.

Exhibitors and sponsors will have an experiential opportunity to engage over drinks and hors d'oeuvres with an educated and intentional audience looking for AI solutions that could benefit their organizations and communities. The Showcase event format will provide an intimate setting to educate Colorado's Smart Community ecosystem on their solutions and how AI is being used.
